Rescue Sam

Aed is Suitable in All Situations

Integrated Coach

During the rescue operation, you can count on the reliability of the Rescue SAM AED. Afterwards, you will be guided step by step through the cardiac massage phase using the RCP metronome, which allows to support the operator in maintaining the correct rhythm of the compressions.

Italian warranty

Trust is the most important characteristic of any relationship. This is why the Rescue SAM defibrillator can count on an a warranty up to 8 years.

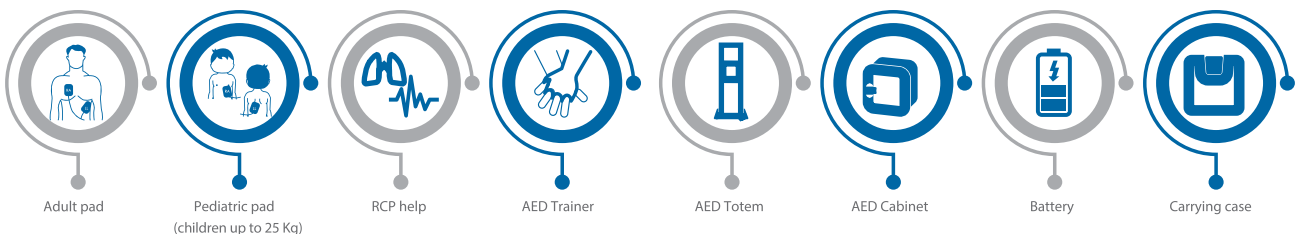

Intuitive and user friendly

We are the only Italian defibrillators manufacturer. We are committed to creating AEDs reliable and equipped with the best technology as well as easy to be used by any person. We deal directly with the design, production and marketing of AEDs, ensuring high quality standards.

The best " value for money"

The management cost over time is one of the lowest on market. Changing paddles and batteries, during the long-life cycle of AEDs, will never be a problem.
